“ADDED BIOTIN”

FEEDING DIRECTIONS: 2/3-1 lb head/day.
Supply roughage, water, and free choice salt.

Contains high levels of copper. Do not feed to sheep.

Provide roughage, water, and free choice salt.

AVAILABLE WITH

ClariFly® Larvicide is a feed additive that prevents adult house flies, stable flies, face flies and horn flies from developing in manure. Use of ClariFly® Larvicide helps keep flies from becoming a nuisance to horses and humans.

This product is made in a feed manufacturing facility that DOES NOT handle or store products containing animal proteins prohibited in ruminant feed.
